NET.Lock Safe Workplace Lockers

Touchless Technology

No contact with contaminated surfaces. Use your existing employee ID card or mobile app.

Employee Safety

Provide easy to sanitize personal storage in support of a safe workplace.

Safe Locker Management

Manage physical distancing guidelines for effective and secure employee collaboration.

Gantner

Touchless Technology

No contact with contaminated surfaces means less risk to be infected. Touchless technology ensures lockers are safe to use.

- ✓ Use existing employees ID access cards to operate lockers
- ✓ Hands free operation: spring opening, push-to-open and push-to-lock
- ✓ Use the GANTNER LockPal App: use your personal, safe smartphone
- ✓ No lines at a central terminal: access directly at your personal locker

80% of people behave differently today when interacting with public technology that they have to touch.

Employee Safety

Employees are your most valuable asset. Easy to sanitize personal storage lockers help support clean office policies and disinfection protocols.

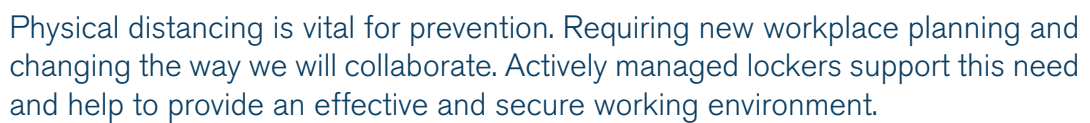

- ✓ Elegantly hidden locks allow smooth surfaces for easy disinfection
- ✓ Installed on a variety of door types including metal, wood, glass, antimicrobial material
- ✓ Schedule regular maintenance-cleaning intervals logged in audit-trail
- ✓ Feel good: Provides confidence and peace of mind for returning employees

Working adults in the US showed that **41%** are afraid to go back to work. Your PMPs (pandemic management protocols) must retain enough flexibility and sensitivity to match employee emotion.
