DIGITAL CLUB TRANSFORMATION

RFID / NFC SYSTEM SOLUTIONS
FOR FITNESS CLUBS

GANTNER – THE MARKET LEADER
FOR TOUCHLESS SYSTEM SOLUTIONS IN THE FITNESS INDUSTRY

GANTNER optimizes and simplifies the organization of fitness clubs. Using touchless RFID/NFC credentials (member cards, wristbands, key tags) GANTNER creates a unique member experience throughout the entire facility. From check-in and access control to electronic locker systems and cashless payment – GANTNER provides an integrated solution.

For over 30 years, leading fitness chains as well as large and small fitness clubs worldwide trust the pioneer of touchless RFID/NFC technology.

GANTNER headquarters Nüziders / Austria

Market leader
8 of the 10 leading fitness chains in Europe trust in GANTNER.

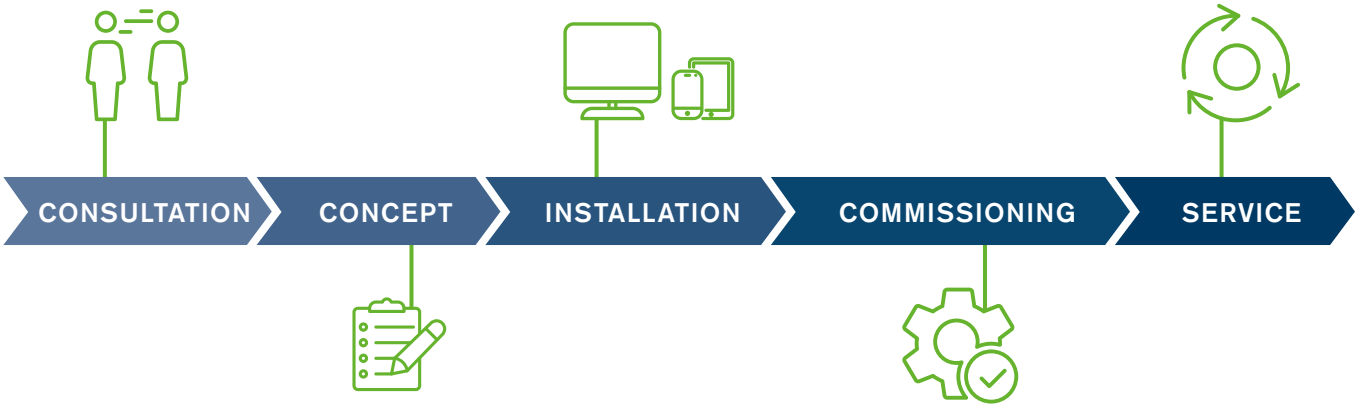
Global presence
Over 450 employees around the world are at your disposal.

Engineering competence
Everything from a single source – software and hardware are both developed in-house.

FULL-SERVICE PROVIDER

You are in good hands with GANTNER. Our solutions impress through innovation, sustainability, and reliability.

In collaboration with our partners, we accompany you in all project phases. A broad partner network and a professional service team are happy to assist you worldwide.



» Since we had a GANTNER system installed, our processes have been simplified and the workload of our employees has been significantly reduced. Our members are thrilled about the extra level of comfort. It is the perfect solution for us. «

Magnus Frennmark
CEO Fitness24Seven

CLUB AUTOMATION
HIGHER SECURITY AND MORE PROFIT

GANTNER supports you in the automation of daily processes. This allows your members to check in to club services independently without staff.

With innovative solutions, compatible with all common club management software providers, we optimize and organize all fitness club areas. GANTNER automates your club and supports your digital transformation – creating a superior member experience!

Integrated system
One credential for all applications.

Compatible
Compatibility with modern digital training equipment.

More profit
Automation leads to more sales and lower costs.

UNIQUE MEMBER EXPERIENCE

From convenient parking to exiting the club – a unique member experience.

CHECK-IN AND ACCESS CONTROL
FOR QUICK AND SECURE IDENTIFICATION

GANTNER ensures that check-in and access control are automated, quick, and secure. That means more time for your members and the assurance that only paying members are in the club.

The comfortable and hygienic solution provides members with a superior club experience. It offers operators a precise overview of club activities and attendance.

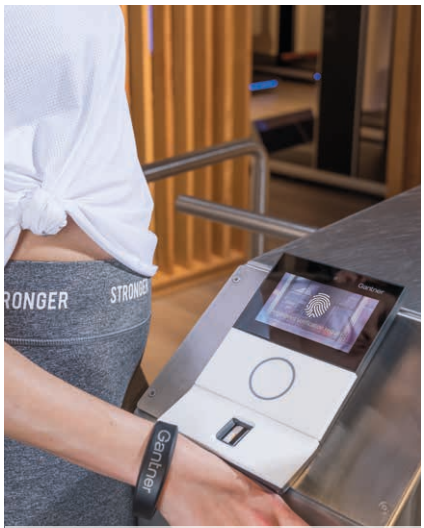
Higher security
Robust credentials and a networked system prevent membership abuse.

24/7 without staff
Fully automated, secure access control with optional fever screening.

Full overview
Know who is currently in the club and limit access with the club management software.

Access with smartphone and QR code

Automated fever screening



Fingerprint verification

When entering the club, the access terminal informs me about special promotions.

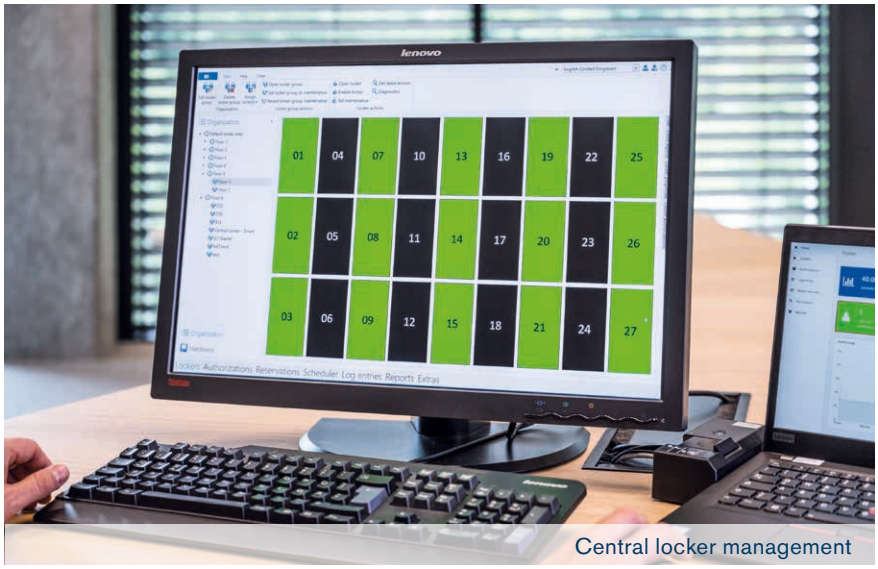
CENTRALLY-POWERED LOCKER SYSTEM
FOR CHANGING ROOMS AND VALUE LOCKERS

Battery-free systems provide an environmentally friendly and sustainable solution. Thanks to central management software, you are always in control – even in challenging times. The ideal solution for larger facilities.

USB-charging + LED light

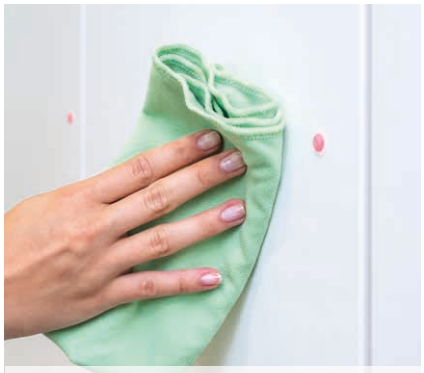


Central locker management

Member comfort
Always a vacant locker without key organization ensures convenience.

Break-in alarm
The integrated break-in alarm protects operators and members.

Cost savings
Thanks to optimized use, fewer lockers are required. The system is maintenance-free without batteries.



Easy cleaning

With my smartphone, I can open and lock my locker securely and touchless.

BATTERY-POWERED LOCKER SYSTEMS
FOR CHANGING ROOMS AND VALUE LOCKERS

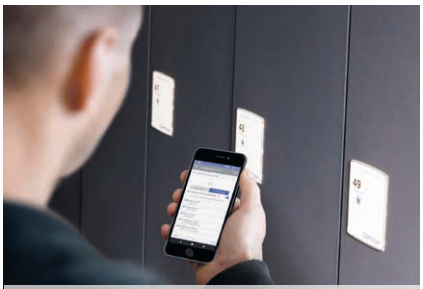
Battery-powered locker solutions are ideal for small and medium-sized facilities. Perfect for easy retrofitting without cabling in existing lockers. For special requirements such as day guests, a solution with PIN code is also available.

Robust and durable
A robust and durable design, along with a battery life of up to 10 years.

Fast configuration
Configure and analyze audit trails faster and easier with an app.

Easy retrofitting
Compatible replacement for coin and key locks. Optional with status feedback to a central management system.

Status feedback to management software



Commissioning via app

Various options

» The push-button of the lock shows me immediately which locker is available. «

CASHLESS PAYMENT SYSTEMS
FOR ADDITIONAL REVENUE AND COMFORT

Offering your members convenient payment without cash or bank card brings new possibilities and additional business. Whether at the vending machine, the juice bar, or in the shop – the option of cashless payment leads to more spontaneous consumption.

Member comfort
No need to carry cash, payments are made conveniently using the member credential.

Additional revenue
Cashless payment and self-service increase spontaneous consumption. In addition, customer-specific promotions increase sales.

24/7 without personnel
Sales around the clock using a vending machine or self-service terminal.

Cashless point-of-sale

Time-base billing (tanning booth)

Integration with vending machines

Thanks to my beverage subscription, I have quick access to refreshing drinks at any time.
